The washbasin is first extensively sanded and coarsely processed by hand, before four different protective layers (anti-scratch, anti-grease, waterproof and color coatings) are applied. Each phase is carried out by hand and the washbasin is sanded again and again to achieve the highest possible result. If damage occurs accidentally, for example due to the fall of a hard object, the specially supplied wax can be applied with a cloth. This wax not only masks the damage but also provides protection again, the coating is protected against normally used bathroom cleaning products.</p> <p>Weight category: 50 to 100 kg Condition: New</p>	305€
